The Tale of Tea is the saga of globalisation. Tea gave birth to paper money, the Opium Wars and Hong Kong, triggered the Anglo-Dutch wars and the American war of independence, shaped the economies and military history of Táng and Sòng China and moulded Chinese art and culture. Whilst black tea dominates the global market today, such tea is a recent invention. No tea plantations existed in the world’s largest black tea producing countries, India, Kenya and Sri Lanka, when the Dutch and the English went to war about tea in the 17th century. This book replaces popular myths about tea with recondite knowledge on the hidden origins and detailed history of today’s globalised beverage in its many modern guises.

READERSHIP: Specialists and others interested in tea, institutes, academic and public libraries, students of economics, history, politics and ethnobotany, people involved in the tea trade and tea industry.
